Education

B.E. — Artificial Intelligence & Machine Learning | Thakur Shyamnarayan Engineering College, Mumbai University 2024 – 2028

CGPA: 7.63 | Coursework: DSA in C, Python, ML, Data Science

Higher Secondary | Holy Family High School & Jr College, Mumbai 2022 – 2024

Percentage: 60%

Secondary School | Holy Family High School & Jr College, Mumbai 2012 – 2022

Percentage: 69%

Projects

OptiAi — Ai Code Optimizer 2024

- Developed an AI-powered tool to analyze and improve source code quality.
- Implemented features for code optimization, explanation, and bug detection.
- Integrated AI models through Ollama for intelligent code suggestions.
- Built a user-friendly web interface using Flask.
- Applied concepts of Artificial Intelligence, Software Development, and Automation.
- Tech Stack: Python, Flask, Ollama, HTML, CSS, JavaScript, AI Models.

Technical Skills

Languages: Python, C, C++, Java(basic), HTML, CSS, JavaScript (basic)

ML / AI: NumPy, Pandas, Scikit-learn, Colab, Kaggle

Web / Tools: Flask, Bolt.new, v0.dev, z.ai, Vercel, Git, GitHub

Other: Video editing (VN app), Framer Motion, Figma basics

Achievements & Activities

IDE Bootcamp | Srinagar 2026

- Selected to attend a national-level innovation and entrepreneurship bootcamp

Hackspark1.0 | Mumbai 2024

- Developed an AI-powered code optimization tool during my first hackathon experience. Integrated AI models using Ollama to analyze, explain, and improve source code.
